

Engine::Engine

```
graph LR; A[Engine::Engine] --> B[Application::Application]; B --> C[Logger::Log];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box labeled 'Engine::Engine'. A blue arrow points from this box to a white rectangular box labeled 'Application::Application'. Another blue arrow points from the 'Application::Application' box to a final white rectangular box labeled 'Logger::Log'. All boxes have a thin black border.

Application::Application

Logger::Log
