

Window::~~Window

Window::Terminate

Logger::Log

```
graph LR; A[Window::~~Window] --> B[Window::Terminate]; B --> C[Logger::Log];
```

The diagram illustrates a sequence of three operations in a flowchart. The first operation, 'Window::~~Window', is contained within a gray rectangular box. A blue arrow points from this box to the second operation, 'Window::Terminate', which is in a white rectangular box with a black border. Another blue arrow points from the second box to the third operation, 'Logger::Log', also in a white rectangular box with a black border. The boxes are arranged horizontally from left to right.
